

Grow Sock

The Grow Sock Garden is an ideal planter for any home gardening need. The compost-based growing medium and mesh containment provide ideal growing conditions for flowers, vegetables, herbs, berries and much more. A garden can be setup anywhere - Decks, Patios, driveways, grass, or anywhere else there is no soil.

Perfect for Apartment Patio Gardens, Garden on a Bench. . . help those with back problems

Grow Plants on your Fence Runners, Grow Plants around your Walkways

Each Sock Filled with your desired soil is only \$4.00

GARDEN KIT

The GROW SOCK GARDEN Kit is the easiest and quickest way to start a garden anywhere. Essentially a 16 Square Foot Raised bed system, this garden can be setup anywhere - Decks, Patios, driveways, grass, or anywhere else without the need for soil. Plus, with the use of our GROW SOCK System, your garden is both weed and disease free and will reduce or eliminate your need to fertilize for up to 2 years! The kit also includes our simple drip irrigation kit which expands to allow you to create your garden layout to fit your needs - 1 row or up to 4 rows.

Package includes:

8 Socks with Garden Soil (microbial)	\$ 32.00
15 Sock Drip Irrigation Kit	\$ 59.00
Water Tank Reservoir and Pump	\$ 59.00
Garden KIT TOTAL	\$150.00

Easy to Plant seedlings or plugs

- 1) Cut hole in mesh with a knife or scissors
- 2) Take a stick or wooden spoon and hollow out a hole to accept the seedling
- 3) Plant the seedling

The small size Garden (8 socks) will produce on Average 80 pounds of produce per season. Each additional sock will generate an additional 10 pounds of vegetables per season.

Benefits of GROW SOCK Gardening

- Weeds practically eliminated
- Know the soil is disease free and nutrient rich
- Use Chlorine Free Water to maximize plant growth
- No frame or border required to hold soil for building a garden
- Select the soil that is right for the type of plants you want to grow
- The small size Garden (8 socks) takes about 45 min to install and plant
- Use the Socks to create Borders of trails, landscape beds around trees.
- Do not compete for water with the trees if you place the socks around the perimeter of the tree.
